

# CENTRALIA CULTURAL SOCIETY

## COSTUME CLASSIFICATION INSTRUCTIONS

The classification number consists of a nine (9) digit field. The number is composed of three (3) divisions.

The first division is the three (3) digit NATIONAL COSTUME CLASSIFICATION.

The second division is the three (3) digit LITTLE THEATER PLAYERS CLASSIFICATION.

The third division is the three (3) digit item sequence number.

### EXAMPLE:

COSTUME #      185-601-003

185 – FRONTIER

601 – MEN'S LONG JOHNS

003 – THIRD ITEM OF FRONTIER MEN'S LONG JOHNS

Preprinted file cards will be filled out for each costume. The nine digit costume number will be placed on each item. The number may be placed on the costume using one of three ways.

1. printed on a label and ironed onto the costume
2. printed directly on the costume using a laundry marker
3. printed on a tag and attached to the costume.

The cards will be entered into a computer database file. A list of costumes can be printed and an inventory can be taken as needed. Missing cards can be reprinted when necessary.

The inventory cards will be placed in a file in the costume room. Costumes should be placed in numeric order for easy access and inventory control.

As each costume is rented, the card will be pulled from the file and placed in the DATED RETURN FILE. Each numbered costume will be inspected when leaving and arriving at the costume room. Notations will be made on the file card listing costume defects and a hash mark will be recorded in the space called USED TO DATE to record each time rented or used. Costumes never or seldom used can be removed from inventory allowing space for additional costumes.

Item #	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Description	_____						
	_____						
Size	_____			Color	_____		
# of Pieces	_____			Value	\$_____		
Used-to-Date	_____			Location	_____		
Special Note	_____						
	_____						

Example of blank card to be filled in for each costume. The cards will be entered into a computer database file. A list of costumes can be printed and an inventory can be taken as needed. Missing cards can be reprinted when necessary.
