Arts in Education

The CCS Arts in Education program has established a series of wonderful programs for area school children to enjoy through the 2010-2011 school year. For an admission of \$2.00 per student, quality programming is provided to about 900 students during the three performances that are offered throughout a scheduled program day.

Above students attend an Arts in Education program, April 2010

The series begins October 18 with *"THOMAS EDISON"* presented by Mobile Ed Productions. Friday, November 12 the front gallery will be transformed when *"Sky Dome Planetarium"* sets up, this program also comes to us from Mobile Ed Productions. On Monday, December 20, *"The Fantastic Toy Shoppe"* presented by Art Reach: A Division of the Children's Theatre of Cincinnati will take the stage with this fun show perfect for the Christmas season. Storyteller, Bobby Norfolk will return on January 11 with *"Folktales from Around the World"* a celebration of Cultural Diversity. CCS is partnering with Kaskaskia College on February 24 for the exciting *"Tweaksters: Fabulous Feats of Physical Fun"* that will be presented at the Jane Knight Auditorium on the KC campus. The season will conclude on April 12, 2011 when Kidworks Touring Theatre of Chicago presents *"Global Warming!"*

Packets of information regarding these shows are sent to over 60 schools in the area at the beginning of the school year, Home-schooled students are also welcome. Beginning in January, the *"Picture Person"* program will be visiting area schools offering an educational opportunity for students to be introduced to the works of famous Artists.

Volunteers will meet with classes, showing and discussing artwork by various artists, then the students will be allowed to create artwork of their own based on the styles used by the Artist being studied. The program culminates in the spring with a *"Picture Person"* Art display of the students works, here at the front gallery of the Community Arts Center, Tuesday-Friday, March 22-25. Corporate sponsorship of these outstanding programs are always welcome, please phone 532-2951 for additional information.
